

# Welcome Screen

Here you will see two three clickable options,

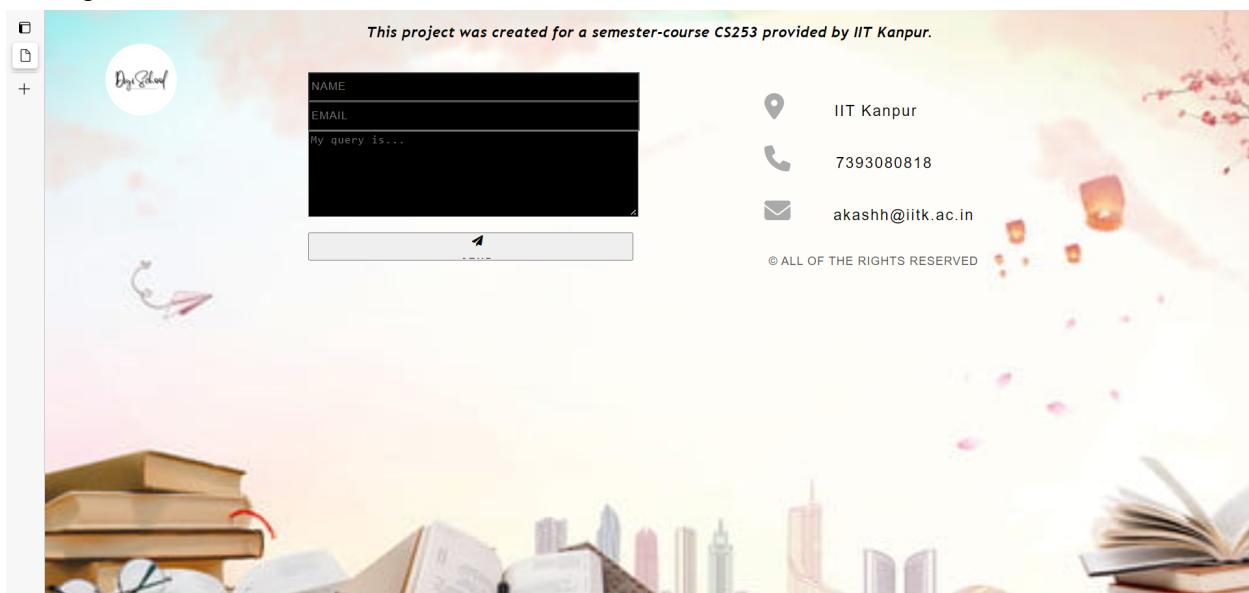

- If you don't have an account, then click on "CREATE AN ACCOUNT NOW"
- If you have an account, then click on "Already have an account"
- If you have some issues, then you can contact us, with this simple "Contact Us" link.

Based on the link, you click you will be redirected to the dedicated page.

## Contact Us

If a user (logged in or not) can contact us for any query such as some website issues, so deletion issues and so on. And we will respond back to them. You can navigate to this page, by clicking "contact us" link.

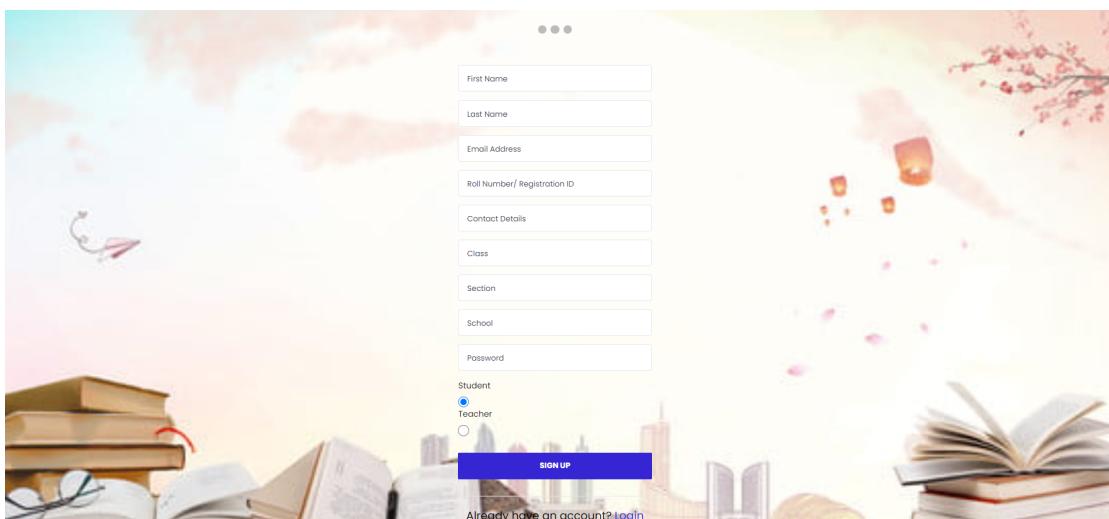

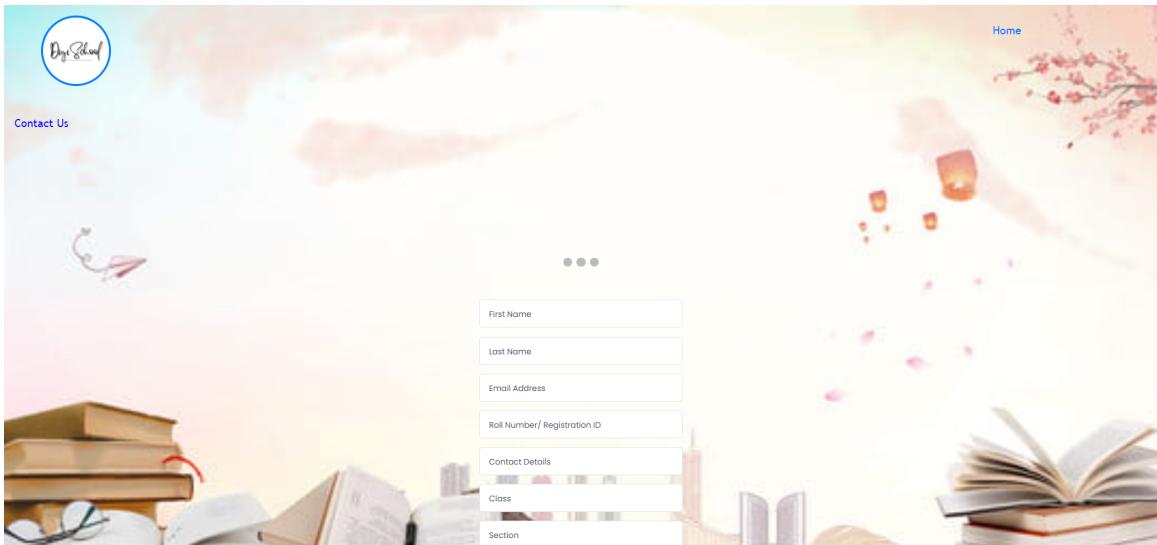

Here a user can query us anything by entering their valid name and email id, and including the query itself. And then we will respond the query to their email.

## Sign up Page

- After clicking on “CREATE AN ACCOUNT NOW!!”, you will have this screen , here fill all the required details and choose the role ( “Student”/ “Teacher”) accordingly . Click on “SIGN UP”.

If you miss out any details or give invalid details, our website will inform you, so that the chances of errors are minimised.

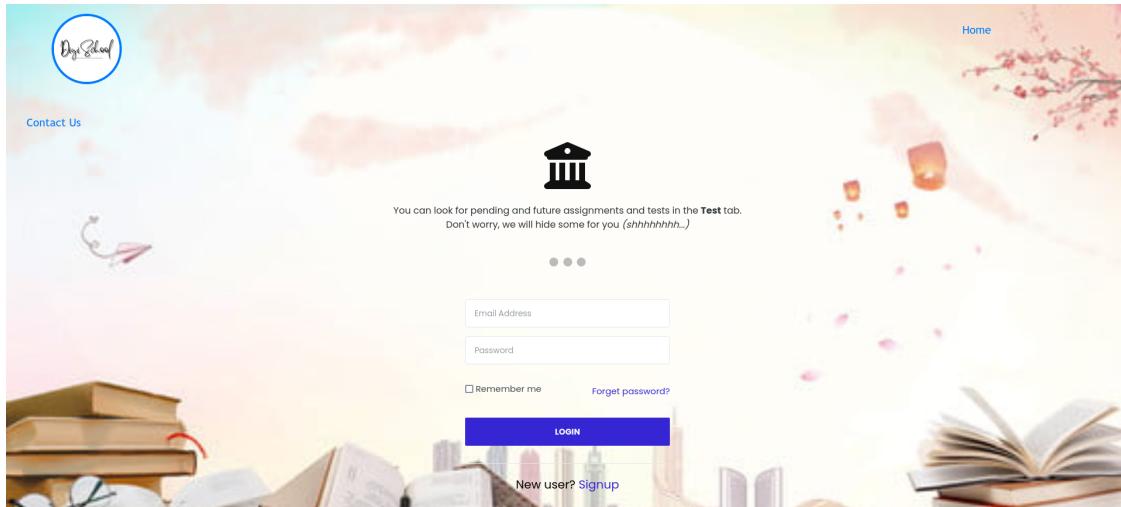

After “sign up”, based on your user category, we will either ask you, an OTP that you by this time, must have received on the registered email-id for account verification (this will happen if you are “STUDENT”), or we will ask you for a UNIQUE CODE, that you must have, which will be given to you by your school (this will happen if you are “TEACHER”). If successful, you will be redirected to Login Page.

If you decides to do it later, then you dont have to go back to signup page, and create a user all over again, you can simply go to login page. And enter the desired details.

## Login Page

Use your registered “Email Address” and “password” then click on “LOGIN” .

Now if user exist and the credentials are correct then,

If you are still not OTP verified, then you will be asked for the same OTP verification again. Else a session will be created and you will be directed to Profile Page specific for you.

## Teacher’s Dashboard/Profile Page

- On the profile screen on the top right you will see your profile information. Where you also gets to edit your profile, however it will only be allowed to change once.
- On the bottom right you will see the list of courses you have taken as a teacher and then you can navigate to student performance in order to see performance of individual as well as class perfomance.
- On the left side you will see (“Dashboard”) the navigation icon for “Profile Page” , “Lectures” , “Tests” , “Forum” , “Announcement” and “Logout” . You can expand the left panel by clicking on this  icon .

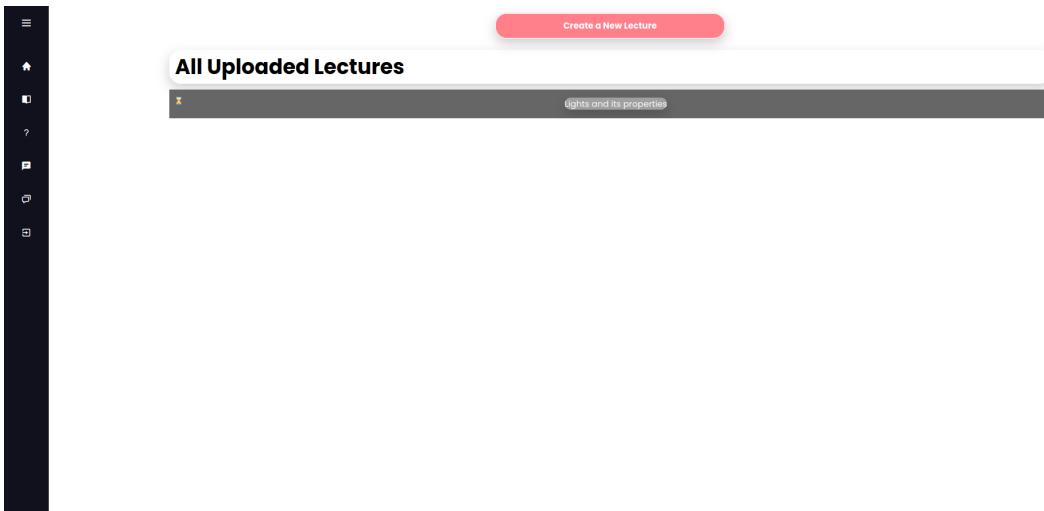

The screenshot shows a dark-themed dashboard with a sidebar containing links: Profile Page, Lectures, Tests, Forum, Announcement, and Logout. The main area is titled 'Profile' and displays student details: Name: Varun Guguloth, Registration Number: 180272, Class: 06 BS, and School: Indian Institute of Technology Kanpur. There is an 'Edit Profile' button. Below this is a 'Student Performance' section with a 'Select Subject' dropdown menu, currently set to 'Science'.

## Teacher Lectures

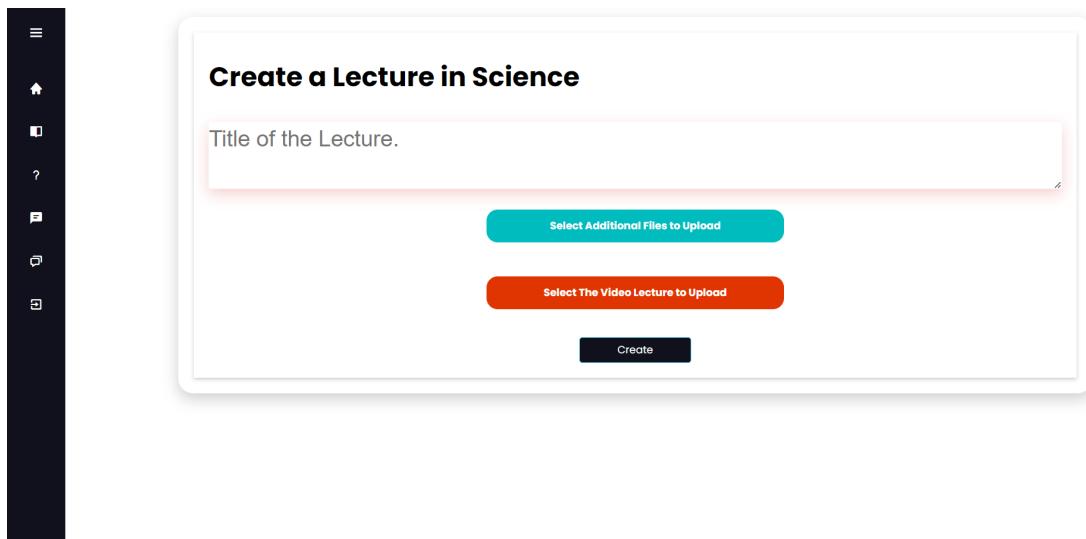

By clicking on the "Lectures" icon ( ) you can navigate to the teacher lectures tab . Here the teacher will have a list of courses which he has been teaching .

The screenshot shows the same dark-themed dashboard as the previous image. The main area is titled 'Teacher Lectures' and contains a 'Select Subject' dropdown menu. The word 'Science' is visible in the dropdown list.

By clicking on a particular course you will get the course page and there you can manage the course material.

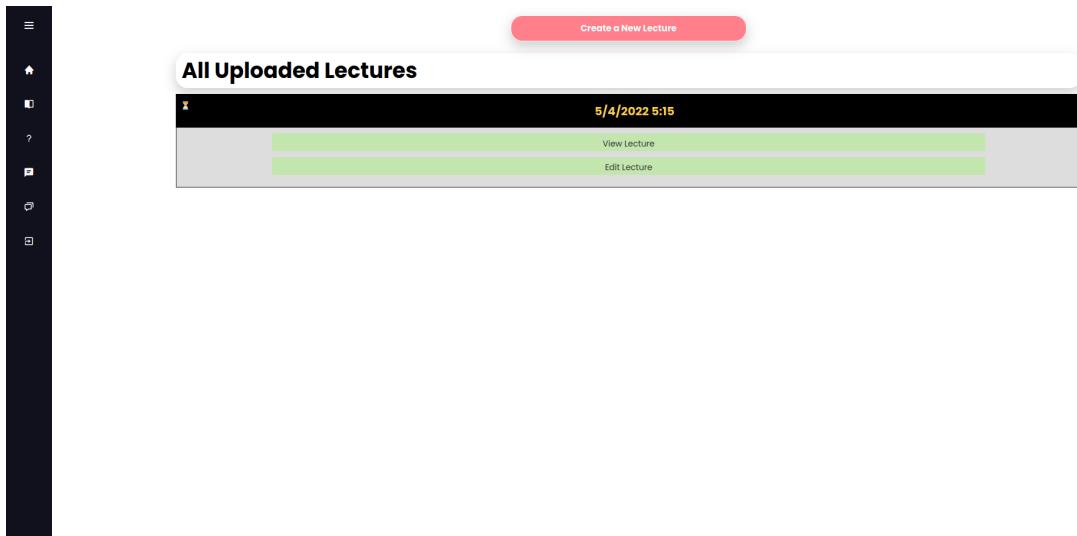

In order to upload the lecture click on the “**Create a New Lecture**” icon and then it will redirect to creating a lecture page,

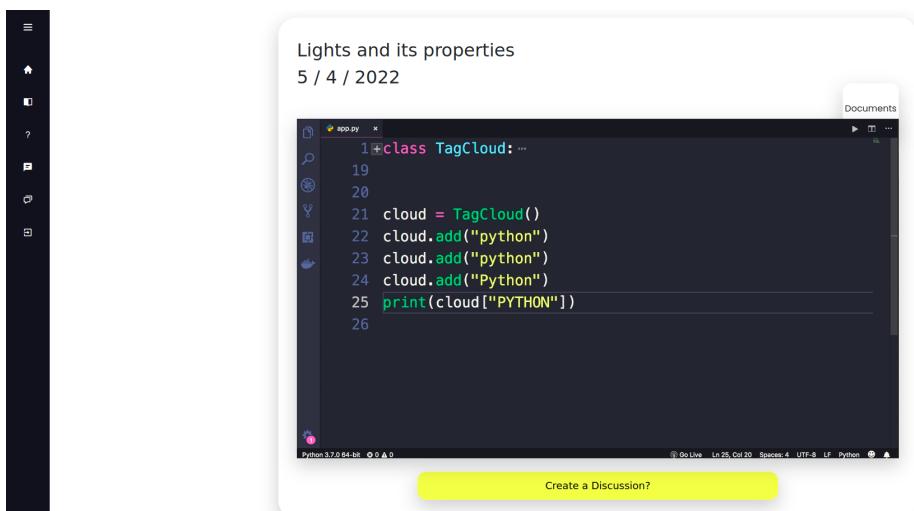

Teacher adds the title, additional files and the video lecture (if any). And finally can create a Lecture. And the list of all uploaded lectures will be updated.

To update the existing lecture, click on that particular lecture and you will get the “**Edit Lecture**” tab for editing the lecture and the page will be same as the create lecture page, however now it wil not create the lecture but edit the existing one.

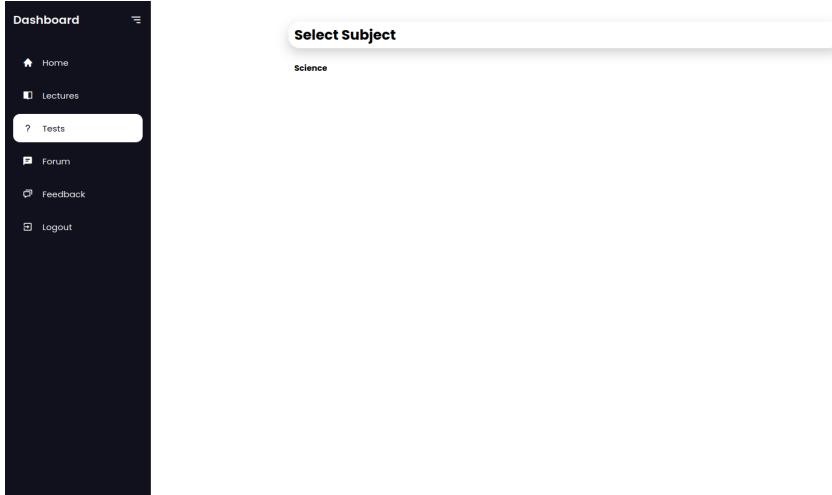

To view the lecture click on “View Lecture”.

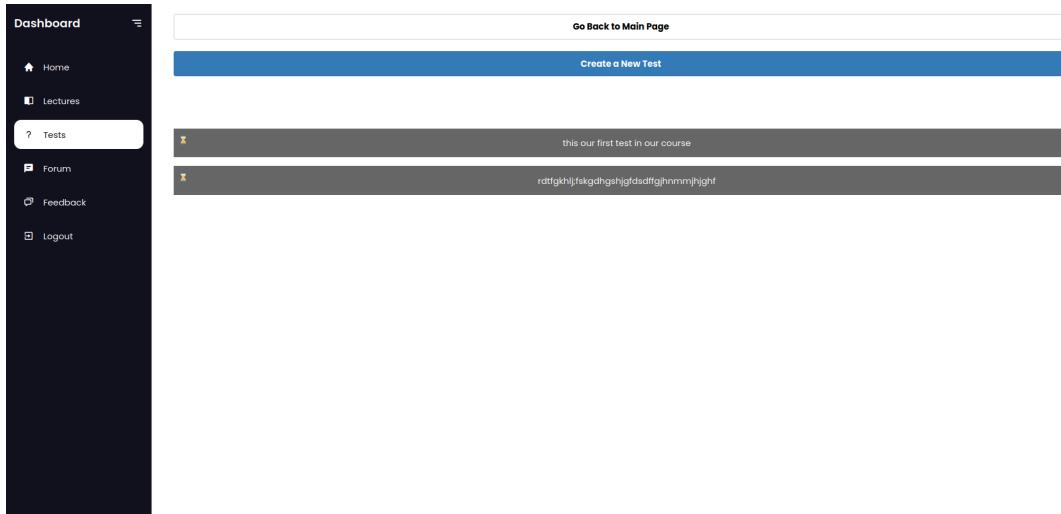

## Teacher Tests

Click on “Tests” (  ) icon, here you will have the list of all courses . You can create the tests for a particular course by clicking on the course name.

The screenshot shows the LMS dashboard with a dark theme. On the left, there is a sidebar with the following menu items: Home, Lectures, Tests (which is highlighted with a red box), Forum, Feedback, and Logout. To the right of the sidebar, a modal window titled "Select Subject" is open, showing the option "Science".

Once you click on a particular course you will get the test page for that course,

The screenshot shows the "Create a New Test" page for the "Science" course. The page has a dark theme. At the top, there is a "Go Back to Main Page" link. Below it, a blue header bar contains the text "Create a New Test". The main content area shows two test items. The first item has the title "this our first test in our course" and the code "rddtgkhjfskgdhhgshjgfdsdffghnnmmjhjght". The second item has a similar structure.

And here you can create the test by clicking on “**create a new test**” . Which will direct you to this below page,

Fill the required details for the test and then teacher can successfully create a test. And the similar to lectures, you can edit and view each test.
